The CRUX Asia ex-Japan Fund underperformed the MSCI Asia ex-Japan index this month. The main positive contribution to fund performance came from the Healthcare, Financials, and Industrials sectors. ICICI Bank in India, Oil & Gas drilling services company China Oilfield Services, and Korean EV materials processor Daebo Magnetic were our top contributors. The main detractors were the Consumer Discretionary, Communication Services, and Energy sectors. Asia Pacific Oil & Gas company Jadestone Energy, Chinese chemical logistics operator Milkyway Chemical, and Indonesian Nickel processor Nickel Industries were the main detractors. We also suffered from not owning the large internet benchmark names such as Tencent and Alibaba. Over the month, we increased our weighing in companies exposed to the electric vehicle value chain and reduced exposure to technology hardware names.
