The TM CRUX UK Smaller Companies Fund (B Accumulation GBP) returned 1.5% against its performance comparator the IA UK Smaller Companies Sector return of 1.9% over the month of April 2023. Markets recovered slightly in April as fears of a global banking crisis, initially sparked by the collapse of Silicon Valley Bank in the US, dissipated. The Fund's material weighting to AIM stocks contributed to the underperformance experienced over April as the FTSE Small-Cap Index recovered to a greater extent. At a stock level, the main contributors were FD Technologies, Dominos Pizza Poland and Destiny Pharma. Light Science Technologies was also one of the top contributors, with the Fund participating in an equity placing at a significant discount.
